Total labour cost	<b>135,000 INR</b>	192,500 INR
Total cost	<b>455,000 INR</b>	482,500 INR

\* Tentative calculation for labour saving is based on our observations and an eight hour work day.

## PROJECT DETAILS

The Shopping Centres Association of India (SCAI), a NPO (non-profit organisation) has green-lit this project to stimulate and engage the area so it can develop into a highlight of Jasola.

SCAI will play an anchor's role in the evolution of the shopping centre, helping it merge into the larger society as an institution of importance.

The 12000 sq/mtr, two basement 5 floor project is estimated to open in quarter two of 2022. A project of this size relies on **innovative solutions** to save time and money.

Gripple was chosen to suspend ductwork, the **fast installation time** had great knock-on effects for the rest of the project. This choice allowed Harcomp Airflex Pvt.Ltd to stick to the wider project schedule and even save **20 hours**, whilst also **delivering a high quality, secure finish**.
